About Me

I am an undergraduate student pursuing a BEng (Hons) in Software Engineering at the Informatics Institute of Technology (IIT), Sri Lanka, affiliated with the University of Westminster, UK. I am passionate about learning new technologies and constantly strive to expand my technical knowledge. I am also eager to gain hands-on industry experience by working alongside professionals, enhancing my practical skills and understanding real-world software development practices.

Languages

- English
- Sinhala

Education

- **BEng (Hons) Software Engineering** 2023- Present
University of Westminster(UK)
Informatics Institute of Technology
- **Completed Foundation Certificate In Higher Education** 2022
Informatics Institute of Technology
- **GCE A/L (Maths Stream)** 2020
Ananda Sastralaya Kotte
- **GCE O/L** 2017
Buwanekaba Maha Vidyalyaya Maharagama

Skills

- Python, Java, HTML, CSS, JavaScript, React.js, Spring boot, Flutter, Kotlin, Figma, Node.js

Projects

- **Full-Stack Portfolio Website | [Link](#)**
 - Developed and deployed a personal portfolio website using the MERN stack (MongoDB, Express.js, React, Node.js).
 - Created a custom REST API to serve project data from a MongoDB Atlas database to the React frontend.
 - Integrated the SendGrid API for a fully functional contact form that sends emails directly to my personal inbox.
- **SDGP Group Project - Housing Scheme and Apartment Management Software(2nd year)**
Developed Housing scheme and apartment Mobile app using Flutter, Node.js, MongoDB Atlas, Firebase
- **Mobile Application Development - Android movie application(2nd year)**
Developed an Android movie application using kotlin and jetpack Compose
- **Real-Time Event Ticketing System(2nd year)**
developed a real-time ticketing system with concurrent ticket sales and purchases using Java and React
- **Web Development Group Project(1st year)**
Created and deployed a website focused on sustainable development using HTML, CSS and JavaScript website
- **Implemented a seat management System(1st year)**
Designed and implemented a Seat Management System Using java for software development II
- **Developed a predictive analytics program for student progression outcomes(1st year)**
software development I - Developed and deployed a predictive analytics program for student progression outcomes using python
